

North Pacific Yachts 49' Pilothouse Specifications

LOA	51' 4"
LWL	46' 10"
Beam	15' 5"
Draft	4' 10"
Displacement	48,000#

Construction:

Solid, hand-laid fiberglass hull. Outer two layers are vinyl ester resin
Superstructure cored primarily with NIDA core including all decks
Hollow stringers
Fully integrated swimming platform and bow pulpit
Non-skid fiberglass decks
Seacocks on all through-hull fittings both above and below the waterline
All interior floors supported by aluminum grid
International paints micron CSC anti-fouling
International paints epoxy barrier coating below water line - Vinyl Ester resin 2 outer layers of hull

Engine Room, Propulsion, Heat and Fresh Water System:

355hp Cummins QSB diesel engine with 160 amp alternator, ZF85A transmission
Engine room 2" sound insulation - 5 salon floor hatches for access and stairs that flip up at forward end
Aluminum non-skid plate floors
Engine room light (4)
Engine room blower
Fiberglass fuel tanks (2 X 250 gallons) - fuel lines for engine 1/2 ID (up to 930 GAL fuel available)
Stainless steel shaft (2.25") - Aqua 17
Dripless shaft seal - PSS
Precision 4 blade bronze propeller
Hynautic 2 station hydraulic steering
Exhaust muffler - exhaust 6" diameter - sea water intake for engine 2"
Dual Racor fuel filter
Automatic bilge pump (3)
Manual bilge pump (1)
Holding tank (65 GAL) w/ macerator
Fiberglass water tanks (2 X 175 gallons)
Variable speed Smart Sensor fresh water pump
Fresh water intake (2)
20 gallon water heater in engineroom
Oil change system for engine and generator

Electrical:

Northern Lights 6KW genset w/ sound shield and water/gas separator (larger with East Coast delivery option)
Magnum MS2812 2800W inverter/charger (pure sine wave)
12v/200AMP AGM battery in battery box (3 house batteries, 2 thruster/windlass batteries, 1 engine starter, 1 generator starter)
External voltage regulator for alternator
Master control panel (AC/DC circuit breakers) - Blue Sea
Bonded, numbered and color coded electrical system
Tinned copper wire throughout
120V AC outlets
12V throughout interior and exterior
50amp 125/250V shore power connections (2) - Smart Plug

Interior:

Imtra LED lights throughout with stainless steel trim ring
Teak and holly flooring throughout (other hardwood flooring options available)
Teak paneling and cabinetry throughout with 7 sprayed coats of satin poly urethane (modern, Walnut interiors available)

Cabinets in galley (number depending on equipment ordered)
Hatch that lifts on galley countertop (1)
Handrail running along middle of the ceiling
Overhead cabinet in the galley with wine glass holder

Double wall detail with sconce lighting

Pilothouse:

See below for Garmin electronics list

A/C outlet (2)

D/C outlet (1)

Map light (1)

Aluminum locking, sliding door with interior teak insert (2)

AC & DC electrical panels - Blue Seas

Helm seat (2)

Cummins single lever electronic throttle and shift control

Engine gauges including fuel flow on Cummins Smart Tach

Windlass control

Bow thruster control

Electric fuel and water gauges

Horn control

Teak steering wheel

Defrost fan (2)

Windshield wiper (3)

Windshield washer (3)

Raised L shaped bench seat that converts into a bed

Folding table at bench seat

Storage cabinets and drawers

Reading light above bench seat (2)

Aft window and aft side windows opening and screened

Head (2):

A/C outlet (1)

Teak with teak and holly floors

Tecma toilet with fresh water flush

Mirror

Ceramic undermount sink (frosted glass or ceramic above counter sinks available)

Adjoining moulded fiberglass shower stall

Exhaust fan

Shower control and nozzle

Frosted glass shower door with NP logo

Automatic shower sump pump

Staron or granite countertop

Opening, screened porthole window

Tank watch holding tank level gauge

Towel racks and other hardware

Guest Stateroom (3 Stateroom Options Available, \$15,000):

Several different layout available (queen bed, 2 sliding beds, fold down bunks, 4 bunks etc)

A/C outlet (1)

Opening, screened porthole window (2)

Hanging locker, cabinets and drawers (numbers depend on bed choice)

Master Stateroom:

A/C outlet (2)

Full queen island bed

Reading light (2)

LED accent rope lighting
Headboard with white vinyl leather and mirror
Teak planks where portholes are
Cabinets along both sides of the bed with frosted glass, backlit doors
White Staron counter material on side table cabinets
Large hanging locker (2)
Drawers(8)
Opening, screened porthole window (4)
Opening, screened overhead hatch (1)
Linen closet starboard side of hallway just aft of master stateroom

Exterior Fittings and Equipment:

Stainless steel window frames
Stainless steel railing and stanchions around all edges - secured with bolts
FRP no-skid deck on all deck surfaces
SS mooring cleats (8) - 4 in cockpit, 2 midship, 2 at the bow +1 on each side of salon
SS fuel, water and waste tank deck fittings
SS portholes
Safety glass windows
LED courtesy lights (9)

Cockpit:

Light (2)
Courtesy light (2)
Hatch to access lazarette - gas assisted
Dripless rudder bearing in lazarette
Stainless steel ladder leading to fly bridge, starboard side
Transom door leading to swim grid
Bulwark door on port and starboard side
Aluminum sliding door with teak insert to access the salon
Locker on transom with fresh/sea water washdown outlet
Locker on transom with shore power connector (Smart Plug)
Fresh water shower
Swim ladder
Extra SS aft upper deck supports (2)
Pop up cleat on swim platform (2)
Flexiteek decks on swim platform and cockpit floor (synthetic teak, no maintenance, won't fade)

Flybridge:

See lower for Garmin electronics list
Dual helm seat
L shaped seat with table and bench seat - storage underneath
Stainless steel steering wheel
Engine gauges
Cummins single lever electronic engine control
Windlass control
Bow thruster control
Radar arch light (2)
Courtesy light (2)
D/C outlet (1)
AC outlet on starboard side (1)
Anchor light

Navigation lights
Stainless steel flag base
Dual trumpet air horn
Storage cabinet/propane locker on starboard side of helm seat
Storage locker/seat (2)
Sunbrella canvas cover for instruments and seating
Nick Jackson LP650 davit
Hardtop - Now standard

Forward Walk Around:

Courtesy lights (3)
Fresh & sea water washdown hose connector
Muir VRC2500 vertical windlass with 2500# lifting capacity
280 ft of 3/8" high test galvanized chain - Chain locker divided in half with fender storage port side
65 LBS galvanized plow anchor

Other Equipment:

Side-Power SE130 bow thruster
Fusion stereo system in salon, pilothouse and on flybridge
Emergency tiller
Zincs (5)
Extra gelcoat (about 1qt)

Garmin Electronics:

A full set of Garmin electronics is included with the NP49. The system includes 3 multifunction displays with chartplotter, fishfinder and radar functions. Autopilot and VHF radios are also included. We don't list the specific equipment here because electronics change so quickly, so please contact us for details.
